Penelitian kuantitatif ini bertujuan untuk melihat hubungan sikap terhadap pornografi dan perilaku seks pranikah ditinjau dari gender. Partisipan dalam penelitian merupakan *total Sampling* dari 257 orang siswa kelas VIII SMP X, Deli Serdang Sumatera Utara. Instrumen dalam penelitian ini berupa skala sikap terhadap pornografi dan skala perilaku seks pranikah, diujicobakan pada 257 orang (*try out* terpakai). Skala sikap terhadap pornografi memiliki validitas berkisar antara 0,254-0,648, koefisien reliabilitas alpha cronbach 0.940. Skala perilaku seks pranikah memiliki koefisien validitas berkisar antara 0,402-0,693, dan koefisien reliabilitas alpha cronbach 0.924. Analisa data dengan ANCOVA. Hasil penelitian menunjukkan ada hubungan sikap terhadap pornografi dan perilaku seks pranikah ditinjau dari gender ($F_{corrected\ model} = 120,643$, sig. 0,000). Ada hubungan sikap terhadap pornografi dan perilaku seks pranikah ($F = 219,795$, sig. 0,000). Tidak ada perbedaan perilaku seks pranikah ditinjau dari gender ($F = 0,287$, sig. 0,592). 120 orang (46,7%) memiliki sikap positif terhadap pornografi, 114 orang (44,36%) memiliki perilaku seks pranikah positif. 88 orang (34,24%) diantaranya juga memiliki perilaku seks pranikah positif (58 orang laki-laki dan 30 orang perempuan).

Kata Kunci : *perilaku seks pranikah, sikap terhadap pornografi, gender,*
