## ABSTRACT

Aggressive behavior is an act of attacking with physical violence and verbal unacceptable social behaviors associated with violation of social norms. the hypothesis of this study is there is a relationship between the giving punishment with aggressive behavior in adolescents. This study aims to determine whether there is a relationship between the giving punishment with aggressive behavior of teenagers in the village Pekebuan. This research is a correlational study using quantitative methods. Methods of data collection using the scale of punishment with the scale of aggressive behavior. The study subjects were 60 teenagers in the village Pekebuan, sampling technique research use random percentage. The scale of punishment compiled by researchers with the Likert scale and the scale of aggressive behavior are also compiled by researchers with the scale of semantic differential. Reliability test results of the scale of punishment amounted to 0.926 and for aggressive behavior amounted to 0.941. Data analysis using product moment correlation and assisted by SPSS 16.00 for windows. From the results of this study concluded that the initial test proven that there is a relationship between the giving punishment with aggressive behavior in adolescents in the village Pekebuan, evidenced by coefficient  $r_{xy} = 0.252$ ;  $p = 0.026$  means  $p < 0.050$ . It means the better punishment, the lower the aggressive behavior in adolescents. Based on the results of research conducted with teenagers in the village Pekebuan, then the hypothesis is accepted. Based determinant ( $r^2$ ) of the above relationship is equal to 0.063. This shows that the giving of punishment affect aggressive behavior of teenagers by 6.3% to 93.7% remaining aggressive behavior is influenced by other factors such as parenting, relationships with peers, biological factors and environmental factors, which are not examined in the study.

Keywords: Giving Punishment, Aggressive Behavior

# HUBUNGAN PEMBERIAN *PUNISHMENT* DENGAN PERILAKU AGRESIF REMAJA DI DESA PEKEBUAN

## ABSTRAK

Perilaku agresif yaitu suatu tindakan menyerang dengan kekerasan baik secara fisik dan verbal yang tidak dapat diterima secara sosial, perilaku yang berhubungan dengan pelanggaran norma-norma sosial. hipotesis dari penelitian ini adalah ada hubungan antara pemberian *punishment* dengan perilaku agresif pada remaja. Penelitian ini bertujuan untuk mengetahui apakah ada hubungan antara pemberian *punishment* dengan perilaku agresif remaja di desa Pekebulan. Penelitian ini merupakan penelitian korelasional yang menggunakan metode kuantitatif. Metode pengumpulan data menggunakan skala pemberian *punishment* dengan skala perilaku agresif. Subjek penelitian berjumlah 60 remaja di desa Pekebulan, teknik pengambilan sample penelitian menggunakan teknik persentase random. Skala pemberian *punishment* disusun sendiri oleh peneliti dengan skala likert dan skala perilaku agresif juga disusun sendiri oleh peneliti dengan skala semantik differensial. Hasil uji reabilitas skala pemberian *punishment* sebesar 0,926 dan perilaku agresif sebesar 0,941. Analisis data menggunakan korelasi *product moment* dan dibantu dengan spss 16,00 *for windows*. Dari hasil penelitian dapat disimpulkan bahwa pengujian awal teruji, yaitu ada hubungan antara pemberian *punishment* dengan perilaku agresif pada remaja di desa Pekebulan, dibuktikan dengan koefisien  $r_{xy} = 0,252$ ;  $p = 0,026$  berarti  $p < 0,050$ . Hal ini berarti semakin baik pemberian *punishment* maka semakin tinggi perilaku agresif pada remaja. Berdasarkan hasil penelitian yang dilakukan pada remaja di desa Pekebulan, maka hipotesis yang diajukan diterima. Berdasarkan koefisien determinan ( $r^2$ ) dari hubungan diatas adalah sebesar 0,063. Hal ini menunjukkan bahwa pemberian *punishment* mempengaruhi perilaku agresif remaja sebesar 6,3% selebihnya 93,7% perilaku agresif dipengaruhi oleh faktor-faktor lain seperti pola asuh, hubungan dengan teman sebaya, faktor biologis dan faktor lingkungan, yang dalam penelitian tidak diteliti.

Kata kunci: Pemberian *Punishment*, Perilaku Agresif
